***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-20, 22 and 28-31, drawn to a first product, a transgenic plant containing any exogenous nucleic acid encoding any L3 protein, and seed derived from said plant; and a first method, of increasing resistance to viruses and/or fungi in a plant, comprising preparing said first product.

Group II, claim(s) 21 and 23, drawn to a second method, of reducing toxicity of a single chain ribosome inhibitory protein in a plant.

Group III, claim(s) 24-27, drawn to a third method, of reducing toxicity associated with a single-chain ribosome inhibitory protein (RIP), comprising co-administering to any cell a single-chain RIP and an L3 protein.

Group IV, claim(s) 32-35, drawn to a fourth product, non-natural mutant L3 proteins.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of administering RIPs and L3 proteins to non-plant cells of Group III is not shared with the inventions of Groups I, II, and IV; the transgenic plants expressing nucleic acids encoding non-mutant L3 proteins of Group I are not shared with the transgenic plants expressing RIP and method of reducing toxicity of Group II, the non-plant cells of Group III, nor the product of Group IV; the expression of RIP in plants of Group II is not shared with the non-plant cells of Group III nor the product of Group

IV. Further, all nucleotide and amino acid sequences can be produced by alternative means, such as chemical synthesis.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication from the examiner should be directed to Ashwin Mehta, whose telephone number is 703-306-4540. The examiner can normally be reached on Mondays-Thursdays and alternate Fridays from 8:00 A.M to 5:30 P.M.
